

BE Infratek

Spreading smiles around

.....long lasting smiles!

Welcome to BEInfratek!

Dear valued customers and readers,
Thank you for taking your time to review our product catalog for [Mall Navigation](#).

This document provides detailed information on our interactive mall navigation solutions. We are confident that this solution will help you broaden your business opportunities, and lead to the better experience for your customers.

Our mall navigation solutions create an impact on your customers in three different ways:

Allure

Mall visitors are irresistibly attracted to our eye-catching designs of the mall navigation kiosks and thus use the application with curiosity and interest. The modern and state of art design of our touch-screen kiosks adds to the satisfaction of the mall visitors.

Interact

Our mall navigation software is so simple intuitive and user-friendly that anyone can use it with great degree of comfort. It quickly provides the visitors with the desired information and adequate guidance and more!

Delight

Our mall navigation systems are meant to add to the customer's delight. It enhances the prestige and the brand value of the mall and also promotes the corporate image.

Delivery of the End to End Solution at Your Doorstep

Customer satisfaction being our top priority, we not only deliver the complete solution with all the hardware and software components in a ready to be installed state, but also provide required support and services throughout the lifecycle of the product. In addition we are committed to providing turnkey solutions that meet your requirements.

BEInfratek kiosks offer an extensive range of possible configurations that provide several options to maximize your business opportunities. They are built on reliable and proven hardware platforms and therefore offer continuous service without hassle.

Our Professional Services include: project management, electronics, custom hardware and software delivery, content development, support and maintenance.

We will be most happy to respond to your questions and take your suggestions - just email us at shailendra@beinfratek.com or amit@beinfratek.com.
